

Daniel Kirsch

Mathematician. Web. Data. Visualization.

<http://danielkirs.ch>
mail@danielkirs.ch
+49 1511 5729370
[@kirel](#)

Machine „dompteur“ with a math diploma from University of Münster and a background in **pattern recognition** and **machine learning**. Creator of **detexify**. I am excited about data products - from the ML up to the UX. I speak many programming languages - preferably functional ones.

EDUCATION

10/2003 - 11/2010

University of Münster

Diploma in Mathematics / Computer Science ø 1.5

Thesis (1.3): »**Detexify: Recognition of hand-drawn LaTeX symbols**« implemented as a **RESTful** webservice written in **Haskell** and **Ruby** using **machine learning** techniques. Samples are stored in **CouchDB**. See <http://detexify.kirelabs.org>.

1993 - 2002

Gymnasium Laurentianum Warendorf

Abitur ø 2.0

EXPERIENCE

Idalab

Agency for Data Science
<http://www.idalab.de>

2/2016 - today

Data Scientist

Mathematical Modelling, Machine Learning, Artificial Intelligence, Optimization

in a wide range of contexts like IoT, urban planning, finance, mobility, and many more using Python, Pandas, scikit-learn, keras, R and the tidyverse, caret, Shiny, Docker, Elasticsearch, Ansible, AWS (whatever is the right tool for the job).

I also

- **mentor** working students and younger colleagues
- have established **reproducible research** principles in our projects (codified in project templates)
- created an **infrastructure for my colleagues** to easily run analyses in pre-configured cloud environments
- created a Docker-based infrastructure to make our web based demonstrator apps available to our customers
- created scripts to ensure a consistent development setup across company laptops (which **codifies our best practices**)

Freelancer

4/2015 - 1/2016

Mathematician

- Reduction of food waste through **predictive modeling of time series** fo a german vending machine business with **scikit-learn**
- **Statistical consulting** and predictive modeling for in financial services (dunning processes) with **R**
- Supported development of a **machine learning** API for a Berlin-based parking app startup

smartB

Energy Management GmbH

8/2014 - 3/2015

Data Analyst & Visualization Expert

- Translation of **business requirements** into suitable technical solutions
- Leading frontend development (**Project Management, Node, D3, Angular**) and building APIs and the data pipeline (**Python, Pandas**) for our smart meters and **NILM** results
- Drafting and implementing a DevOps process and best practices with **Ansible**

Hitfox Group

Incubator building companies and careers

6/2014 - 7/2014

Data Scientist

- Prototyped a **Big Data** architecture in a **Telco** context
- Supported a new **FinTech** venture by prototyping the backend architecture and implementing the **MVP** with **Rails**

Zweitag GmbH

Ruby on Rails Consultancy

8/2009 - 5/2014

Software Developer

I was involved in a variety of projects ranging from ecommerce sites and auction systems to business intelligence tools. I worked on the **Rails** backend as well as with frontend technologies such as **HamL, SASS**, client-side **Javascript**-frameworks and **D3.js** for data visualization. I helped establish **TDD/BDD** as a company best-practice, introduced new technology such as **Angular.js** as a core Zweitag technology and supported and co-created the corporate **mentorship** program besides mentoring student workers and interns.

Visualization and Computer Graphics Research Group of the University of Münster

10/2008 - 3/2009

Student worker: Voreen Volume Rendering Engine

Worked on the medical imaging engine Voreen in **C++** and **OpenGL**.

Databases and Information Systems Group of the University of Münster

11/2008 - 3/2009

Student worker: Project Learnr

Built a **RESTful** webservice for managing assets for an E-Learning platform using **Ruby on Rails**.

Institute of Mathematical Statistics of the University of Münster

10/2007 - 10/2008

Tutor in stochastics / probability theory

Tutorials and correction of student homework.

VOLUNTARY EXPERIENCE

DSSG Berlin

12/2014 - present

Open Knowledge Lab Münster

Code for Germany

2/2014 - 12/2014

Meetups and Conferences

Open Source

LG Brilllux Münster

10/2011 - 5/2014

TuS Hiltrup 1930 e.V.

8/2006 - 5/2014

FLVW

8/2006

Heinrich-Tellen-Schule

in Warendorf

8/2002 - 6/2003

Founder

Data Science for Social Good Berlin is a pro bono intermediary for data science. We help nonprofits move into the data age by running workshops and hackathons to help solve their data problems thus connecting them to industry data scientists. See <http://dssg-berlin.org/> and <https://blog.dssg-berlin.org/> for more details.

Lab Lead

in a local community revolving around **civic tech** and **open data**. See <http://codefor.de/muenster> for more details.

Responsibilities

- Organize local meetups
- Stay in touch with local government and journalists
- Guide the participants towards common goals

Speaker

- Berlin Open Data Day 2017: **Wie wir Einschulungsbereiche in Berlin optimieren**
- Netzwerk Recherche Jahreskonferenz 2017: **Machine Learning für Journalisten**
- EKHN Symposium 2017: **Data for Good Workshop**
- labtogether 2016: **Panelist on effective altruism and workshop on data for good**
- data2day 2016: **Natural language processing with recurrent neural networks**
- Pydata 2016: **Functional Programming in Python**
- Strange Group Berlin: **The Grammar of Graphics and R Metaprogramming**
- Strange Group Berlin: **Functional Javascript**

Occasional contributor

See <http://github.com/kirel>

Track&Field Manager Young Athletics (Sportwart Nachwuchs)

Responsibilities

- Organisation and supervision of track&field competitions
- Creation and implementation of young athletics nurturing programs
- Uniting coaches of the LG by shaping the mutual vision

Track&field coach

Coaching young athletes between ages 12 to 19 especially in vertical jumps and **pole vault**. Earned several qualifications and final places in the German youth nationals.

Track&field coaching license (C-Lizenz)

Community Service

at a school for special education.

INTERESTS

- Data Science for Social Good
- Data visualization
- Machine learning
- FP (Haskell, Clojure, R, Elixir, ...)
- Open data / data-driven journalism
- Behavioral Science
- Lean startup-methods
- Reading technical books
- Longboarding, wakeboarding, kitesurfing
- Pole vaulting

See <http://kirelabs.org> for personal projects.
